

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Skillin, Clifford W.

Serial No.: 10/664,871

Atty Docket: P040 P01023-US

Filed: 09/22/2003

For: DISPENSING CLOSURE HAVING STOP WALL FOR
POSITIVE ALIGNMENT ON CONTAINER

Examiner: Hylton, Robin A.

Art Unit: 3727

SUMMARY OF TELEPHONE INTERVIEW

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The Applicant called the Examiner on April 13, 2006 requesting a telephone interview regarding the previous office action, which was courteously granted. The Applicant proposed amending the second to last sentence in paragraph [0024] in the specification to clarify that the capping apparatus provides insufficient torque to overcome the seating action. The Applicant also proposed amending the claim 1, 15, and 23 to clarify that each of the ribs is connected to the interior of the closure body to permit pivotal movement of each respective rib. No agreement was reached.

The Applicant previously stated in the Summary of Interview Section in the Amendment submitted on April 13, 2006, that the Examiner tentatively agreed with the proposed amendments, however, this was simply a poor choice of words and not an attempt to misconstrue the Examiner's position on the issue.

The USPTO is authorized to charge any additional fees incurred as a result of the filing hereof or credit any overpayment to our account #02-0900.

Respectfully submitted,

/Joshua A. Stockwell/
